

# CARLOS MANUEL RODRIGUEZ

## QA MANUAL

### ABOUT ME

I am a front-end developer at Diveria. I am proactive, organized and responsible, with good interpersonal relationships. I like team work. I always have the best disposition to do my job. I am currently looking for a challenging position that allows me to continue growing both personally and professionally, in this case I would like to have my first opportunity as a manual Qa with the possibility of learning automation.

I am constantly learning new things to improve my skills.
